**Solving the leachate problem...**

[www.lifeleachless.eu](http://www.lifeleachless.eu)

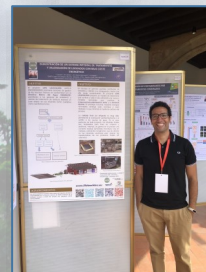

Up to now...

The assembly and installation of the **evaporation/condensation** step of the project's demonstration plant has begun.

**LIFE LEACHLESS** project was presented at the **XXXV National Conference on Chemical Engineering** that took place between the 4th and 6th of July in **Salamanca** (Spain). Members of the project made an oral contribution and presented a poster about the project.

Once again, **LIFE LEACHLESS** project and its solution to the problem of leachate treatment has been presented in a framework of environmental technology specialists. The project was announced at the kick-off meeting of the European H2020 **NUTRIMAN** project. This meeting took place on 25 and 26 October in **Brussels** (Belgium).

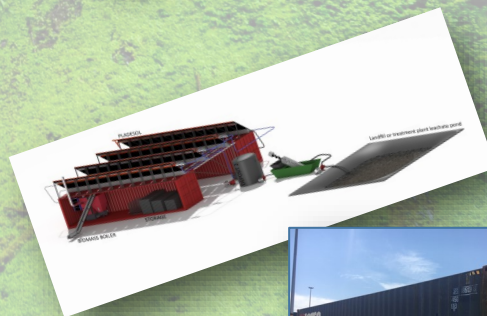

**LIFE LEACHLESS** project is a great success on the other side of the Atlantic. Members of the technical team of the LIFE LEACHLESS project went to **Cuba** and presented the project as an innovative solution for leachate treatment at the **Aguas de La Habana** headquarters.

Next...

In the following months, we will continue to carry out the **assembly** of the **evaporation/condensation** stage and the installation of the demonstration plant.

**LIFE LEACHLESS** project will continue with its dissemination and networking actions. At the end of November, the project will be presented in a new framework of environmental technology specialists, taking advantage of the kick-off meeting of the H2020 **NUTRI2CYCLE** Project in **Ghent** (Belgium).

We do not want to stop meeting more followers! If you represent an organisation where leachate is generated or a ceramic company, **LIFE LEACHLESS** invites you to participate as an observer in the different stages of the project. To do so, all you have to do is complete the questionnaire that appears on our website [www.lifeleachless.eu](http://www.lifeleachless.eu).
