Up to now...

The **demonstration plant** of the Project has finally begun with its start-up and operation in the Zonzamas Environmental Complex located in Lanzarote (Spain). At the end of October the local authorities, the Cabildo of Lanzarote, the managers of the environmental complex of Zonzamas and representatives of the **LIFE LEACHLESS** consortium visited the demonstration plant of the project in Lanzarote to inaugurate the operation of the plant.

Last September the Project was present at the final Workshop of the **LIFE METHAMORPHOSIS** project, held online due to the restrictions carried out by the COVID-19. **LIFE LEACHLESS** was able to share the objectives of the project and the results achieved so far with other LIFE projects in the field of wastewater treatment and stakeholders related to the circular economy.

The project and its results obtained so far have been published in the latest issue of the **Idi Agua Journal**, produced by the Spanish Water Technology Platform (PTEA). This is a special issue of a technical dissemination nature, about innovative technologies for wastewater treatment.

Next...

In the next few months we will start to obtain the first results from the operation of the **demonstration plant** in the Zonzamas Environmental Complex (**Lanzarote**). Therefore, keep an eye on our website and social networks to be informed of further developments.

Due to the restrictions caused by the COVID-19 outbreak, in recent months we have hardly been able to carry out project activities beyond the start-up and operation of the demonstration plant, however, in the coming months we hope to be able to carry out the tasks without any inconvenience. Nevertheless, please follow the health authorities' instructions regarding COVID-19 and **Keep safe!**

If you are a **follower**, we need you! If you belong to a facility where leachate is generated or a ceramic company, we want to know your opinion. **LIFE LEACHLESS** invites you to participate as an observer of the project. Please fill in the questionnaire on our website.
